

# School Field Trips at Little White School Museum

The Little White School Museum provides an interactive learning adventure for young explorers. Students engage, think, and draw conclusions that will enhance any curriculum.

With knowledgeable hosts, compelling artifacts, and an exhaustive collection, learners are provided with an immersive experience in northern Illinois during the 19th century.

Field trips are held indoors at the museum and are approximately 2 hours. There is no charge for SD308 schools. A \$4/per person fee applies to schools and classes outside of SD308 boundaries.

*Anyone interested may contact*
