

## Exhibit Activity - Living Scene Photo Fun

### Look and Find

Look carefully - can you spot a set of blocks, an airplane, a tea set, a baby doll, a braided rug and a chair?

### Past-Present Reflection

Things may be different, but many the same - a telephone to communicate, toys and a game, music to enjoy, photos affixed to the wall, a gathering space for one and for all; this exhibit in time speaks of the past, but through present and future some things seem to last. What differences and similarities do you note from then compared to now? What do you predict will be different or the same in the future?
